DODGE BROTHERS BUSINESS COUPE

The approach of winter emphasizes the all-year usefulness of the car.

Wind and sleet beat in vain against the weather-stripped doors and windows. A floor radiator keeps the interior as warm as a room. The windows are readily adapted for ventilation.

Underlying these seasonal comforts, is the satisfaction owners feel in the car's exceptional sturdiness.

The body proper is a hand-welded steel unit. It is now generally known that this novel construction has made possible Dodge Brothers enamel finish (instead of paint) which is baked at high temperature on the surface of the steel.

The trimness and grace of the body lines are enhanced by a non-rumble fabric top and rear quarters fashioned in the present attractive mode.

Genuine Spanish blue leather upholstery, wide snug-fitting doors and roomy luggage quarters heighten the impression you instantly get of the car's distinctive fitness for service, either business or social.
